Call for Participation in the 5th Workshop for Doctoral Students and Young Researchers in Information Technology Kazimierz Dolny, Poland October 21- 23, 2018

The Scientific and Organizing Committees of the 5th Workshop for Doctoral Students and Young Researchers in Information Technology, October 21-23, 2018, Kazimierz Dolny, Poland, invites you to participate in this very important event for the young scientists.

There is no need to stress that the Computer Science is one of the most influential fields of research, spanning many interdisciplinary scientific efforts and as the result radically transforming our environment.

REASONS to participate:

- get professional feedback on your research plans or the current progress in research,
- find new contacts with peers researching related topics,
- improve communication skills in scientific domains as a key for future success,
- broaden your prospect of professional interests,
- learn how to deliver constructive criticism and still have many friends,
- participate in informal debates on the future of ICT,
- relax a bit after hard work.

Some examples of the research areas (but not limited to them only);

- cloud computing development and deployment, trust, security and privacy,
- internet systems and their quality,
- information security,
- databases, ontologies and semantic issues,
- business process design and management, workflow systems,
- innovative and smart applications,
- big data analytics,
- natural languages processing,
- data management/governance in e-government, e-health, e-finance,
- human-computer interaction,
- games and multimedia,
- image and video processing,
- computer simulations,
- advanced networking (ad-hoc and sensor networks, network security),
- ICT for decision support,
- ICT in medicine,
- bioinformatics,
- social informatics.

Join the workshop this year!

Get involved by submitting your paper.

Your presentation during the Workshop will be carefully evaluated from several perspectives by the Program Committee members, and particularly:

- your research plan,
- your current results,
- your writing skills and presentation quality,
- future potential of your selected scientific problems.

You will get targeted feedback, specially dedicated to you to assist you with future research development.

Presentations will be appraised in two categories:

1. **Initial Research Category** – evaluation of the research proposal and the research plan,
2. **Advanced Research Category** – evaluation of research plan and the progress showing some own new results.

To assist you with preparation of the good quality paper, it is expected a note of recommendation from your research advisor submitted together with your paper.

All submitted papers with supervisor's recommendation (max 60 papers) will be accepted to the Workshop. However, based on the detailed evaluation of all papers and presentations, authors of selected papers will be invited to submit extended versions of the presented work for publication in the journal Computer Science, published by the AGH University of Science and Technology.

The participants get a chance to attend and comment on presentations from your PhD colleagues from different universities. Refreshing inspiration from workshop appearances will energize you for your subsequent efforts towards the PhD degree. Trust us, building the community is helpful and encouraging for future collaboration!

We plan to limit the number of participants up to 60 students/researchers. The registration fee covering the accommodation, meals and all the facilities on the site is 1 100 PLN and has to be paid on the bank account:

Polsko-Japońska Akademia Technik Komputerowych
ul. Koszykowa 86, 02-008 Warszawa
BANK PEKAO SA
PL 76 1240 6247 1111 0000 4977 3594

IMPORTANT DATES

The registration deadline: September 7, 2018

The papers submission deadline: September 21, 2018

Papers should be sent to: wdsit@pja.edu.pl

Scientific Committee

Prof. dr. hab. Romuald Kotowski, Polish-Japanese Academy of Information Technology,
SC Chair

Prof. dr. hab. Maria Orłowska, Polish-Japanese Academy of Information Technology,
co-Chair

Prof. dr. hab. Adam Wierzbicki, Polish-Japanese Academy of Information Technology,
co-Chair

Prof. dr. hab. Krzysztof Marasek, Polish-Japanese Academy of Information Technology,
co-Chair and others.

Organizing Committee

Aneta Ługowska

Monika Dryja
